pabloperez-ciber.vercel.app

IT technician with a solid foundation in sysadmin (Windows and Linux) and experience with cybersecurity tools. I am currently actively training in Blue Team through my own projects. My goal is to join a SOC or Blue Team, focusing on intrusion detection and incident response.

TECHNICAL SKILLS

- >>> Blue Team: ► IDS/IPS — Snort (rules, alerts) ► Firewall pfSense · WatchGuard ► MITRE ATT&CK Framework ► Log analysis: SSH, auth.log ► Wireshark — network analysis ► ISO 27000 · OT Security (ICS)
- >>> Monitoring: ► Nagios Core — config and alerts ► Zabbix — SNMP monitoring ► Grafana + Prometheus ► PNP4Nagios
- >>> Automatized SMTP rules
- >>> Systems & scripting: ► Python — defensive security, logs ► Bash · PowerShell ► Windows Server 2022 + AD/GPO ► Proxmox VE · VMware · Azure ► Entra ID + Microsoft Intune ► Jira · Helix ITSM · Salesforce

PROYECTS

Home SOC lab— Wazuh+ Zeek on Proxmox VE

May 2026

Home SOC lab set up entirely on a Proxmox home server using lightweight LXC containers. It covers log collection, threat detection, network traffic analysis, and real-time alerts—all using free and open-source tools

Wazuh · Zeek · Proxmox

SSH Brute Force Detector

May 2026

- Python tool that analyzes auth.log to detect SSH brute-force attacks without SIEM
- Identifies attacking IP addresses, compromised accounts, and temporal patterns; generates exportable incident reports
- Demonstrated skills: log analysis, attack pattern detection, defensive security scripting

Python · Log Analysis · MITRE ATT&CK T1110
papgar92/Detector-Fuerza-bruta-SSH

Secure Network for SMEs — SysAdmin HND thesis

Sep 2025 - Dec 2025

- Complete design and implementation: perimeter firewall (pfSense), IDS with Snort rules, and Nagios monitoring
- Active Directory on Windows Server 2022, network segmentation, and validated intrusion detection testing
- Comprehensive technical documentation: topology, cost analysis, testing procedures, and results

pfSense · Snort IDS · Nagios · Windows Server 2022

EDUCATION

System Administrator - Higher Level Vocational Training

sep 2023 - feb 2026

Ilerna Online

Cibersecurity & IA Proprietary Master's

apr 2026 - dec 2026

Evolve

WORK EXPERIENCE

IT Support

dec 2025 - Present

Cartronic Group

- IT infrastructure management in SME and corporate environments: Active Directory, Group Policy Objects (GPOs), Proxmox/VMware, WatchGuard firewall.
- Implementation of Nagios Core + Zabbix for monitoring critical services: SAP, domain controllers, network.
- Level 1–2 incident resolution, Google Workspace administration, operating system deployment.

IT Support (internship)

apr 2025 - jul 2025

Prosegur

- On-premise to cloud migrations: Windows Server AD → Azure AD / Microsoft Intune (Entra ID).
- SSO deployment via PXE, inventory management, and Group Policy Objects (GPOs); ticketing with Helix ITSM.

Security monitoring operator

feb 2017 - dic 2025

Movistar Prosegur Alarmas

- Network devices troubleshooting (IP cameras, DVRs): ports, DNS, IP addressing.
- Ticket management using Salesforce CRM and escalation via JIRA; this experience led to a deliberate shift toward cybersecurity.

CERTIFICATIONS

BTL1 — Blue Team Labs Level 1

On the way - Q3 2026

Security Blue Team

SC-200 — Microsoft Security Operations

Pending - Q4 2026

Microsoft

IFCT0050 — Advanced Cybersecurity in OT/ICS Environments

Jul 2025 - Ago 2025

Official Vocational Certificate (Spain) · Grupo Hedima

IFCT0410 — Network Administration and Design

Jun 2025 - Dic 2025

Official Vocational Certificate (Spain) · LideraK Formación

IFCT095PO — Python and Django Development Foundations

Sep 2025 - Nov 2025

Specialisation Certificate (Spain) · Campo Grande Formación

LANGUAGES & ADDITIONAL TRAINING

>>> Spanish (native) >>> English: B2 (MCER) >>> ISO 27000 · MITRE ATT&CK · Linux
